OVER ONE HUNDRED YEARS  
OF  
ALL THAT IS BEST IN ORGAN BUILDING

The House of Willis continues to work on the sound lines laid down by the founder—"Father" Willis—but with every modern development of real artistic value and utility in tone and mechanism.

No manual extension of any sort is used in any new "Willis" instruments or rebuild. "Willis" tonal improvements cover a perfected system of revoicing old pipe work to new purity and refinement of tone, which system, suitably applied, will be found in all new productions.

## INTRODUCTION

---

20651 Standfield

Since the publication of this HANDBOOK AND REGISTER OF MEMBERS OF THE I.S.M. was resumed, we have received ample testimony, both from members of the Society and from others, as to its value as a professional Directory. We hope that this edition may be no less useful than its predecessors. We shall probably have to revert next year to the publication of a Supplement containing such additions and corrections as may be necessary. It is less convenient to use than the full Handbook, but saves us a great deal of money.

The present volume is, we hope, complete up to March, 1950. It would be too much to hope that we have completely avoided errors; for these we must ask your indulgence. Any corrections or alterations which are brought to our notice (for which purpose the annexed card may be used) will be included in the next edition. We shall be grateful if any member can supply us with the current address of any of the members for whom no address is given.

Music Bks. 213e.51. Blackwell: handbook + suppl.

A glance at these pages will show how thoroughly representative the I.S.M. is of the musical profession as a whole. Every branch of the profession is represented, and nearly all the most distinguished musicians of the country are within our ranks, as well as a large proportion of the rank and file who make up the great body of the profession. When the Society speaks it does so with the voice and authority of the profession as a whole. There are, however, gaps which ought to be filled, and we earnestly appeal to all our members to assist us in recruiting qualified professional musicians known to them who are not already members. We shall be pleased to send copies of a Brochure summarising the benefits and advantages of membership to members who require them for recruitment purposes, and if any member would prefer that the first approach should come from Head Office, we will, on request, send suitable letters of invitation to professional musicians whose name and address are supplied to us. A card for this purpose is enclosed.

The I.S.M. offers to the Musical Profession

COUNSEL, LEADERSHIP AND UNITY.

DENIS H. R. BREARLEY,

*General Secretary.*

AN INTRODUCTION TO PIANO PLAYING

**JAMES CHING**

Price 3/- each

*A First Book for everyone who wants to become a really good Pianist and Musician*  
The "Musical Opinion" critic writes:

"James Ching's precision of method, his imaginative and musicianly outlook, and his passionate preoccupation with his subject have earned him the reputation of being one of the finest living teachers of piano playing. This tutor is therefore bound to arouse great interest. It is divided into two sections. The first consists of numerous tuneful pieces, exceptionally well graded, with attractive titles and charming illustrations. For each page of pieces in the first section is a page of exercises in the second section designed for practice with that particular page of pieces. Each page of exercises deals progressively with some aspect of time and rhythm, note learning, sight-reading, ear training and composition. The volume is well produced and in lay-out has one or two original and attractive features. I recommend it strongly to teachers."

## FOREWORD

---

This Supplement, which is **to be used in conjunction with the 1950 Handbook**, is offered as an economy measure. We hope that it will meet members' requirements for the coming year, and will be found more conveniently arranged than the previous supplement. We expect to resume publication of the full Handbook in 1952, and we ask members to be sure to let us have any new particulars for inclusion therein.

The present volume **does not repeat information correctly given in the 1950 Handbook**. It contains full particulars of **all new members** elected since 1st March, 1950, and all **new addresses** which have been notified to us since that date. These are all **listed in alphabetical order**, not by Centres. New appointments are noted only where new addresses are involved. Minor amendments to diplomas, appointments, etc., are not listed, but will all be included in the 1952 Handbook.

There are also included in this Supplement lists for the Specialist Sections, and in these we have included new telephone numbers for Solo-Performers and new School Appointments for School Music members.

D. H. R. BREARLEY,  
*General Secretary.*

**STEINWAY**
**THE PIANO OF INTERNATIONAL FAME**

These words, printed on the packing box of every Steinway piano, aptly summarise the opinion of the world's leading artists, conservatories, radio and television stations. Almost a century of faithful devotion to the highest standards of performance and durability has won the Steinway international fame and acclaim.

Like any work of art, the Steinway enjoys the appreciation of the general public as well as that of the connoisseur. In the home the Steinway, whether it is a Vertical or Grand, becomes a cherished

part of the family, an unfailing source of inspiration for every member.

Despite present high costs, the house of Steinway remains firm in its policy that every Steinway piano shipped from its factories must be of the finest materials and the most careful workmanship.

It is this concern with quality that accounts for the Steinway's vast superiority, and makes it 'the standard piano of the world'—the most profitable of all piano investments.
